Team & Goal oriented
Strong Communication skills

EXPERIENCE

System Engineer | CBRE
2019 - Present

- Researched and implemented the hardware imaging solution, Smartimager. Migrated all regions off of MDT over to the new solution. Led to a 50% productivity increase

- Served as member of Global Automation team responsible for packaging and deploying applications to over 100,000 workstations.

- Bridged the gap between Field Tech Support and Automation team by conducting weekly meetings to review any prevalent windows OS issues and provided automated solutions via Altiris/Powershell scripts.

- Maintained Airwatch environment for MDM devices globally and planned migration to Microsoft Intune

System Administrator | Avenu Insights & Analytics
2018-2019

- Supported server infrastructure consisting of 200 virtual and physical servers (Exchange On-Prem, DHCP, DNS, Print Servers, Hyper-V/SQL clusters, Barracuda Web Filter/Email Gateway, and over 500TB of storage).

- Served as SME for SCCM imaging and windows patching.

- Automated daily tasks relating to Active Directory/File Server administration, storage backups via Veeam, and packaging/deploying windows applications and scripts.

Desktop Specialist | Rent-A-Center
2017-2018

- Managed SCCM environment consisting of over 50,000 endpoints.

- Served as Tier 3 support for both field and corporate users.

- Packaged and deployed applications and windows updates to users company wide.

- Led meetings with other departments such as Security, Networking, and Database admins in order to troubleshoot and resolve any and all issues.

Languages:

English

Jr. Systems Administrator | Aspire Financial Inc.
2014-2017

- Simplified daily tasks such as new hire account creations and user administration in Active Directory via Powershell scripts. Ticket submissions for AD issues reduced by 50%

- Researched and built out entire MDT imaging solution for the department. Productivity increased by 80%

- Supported the physical and virtual infrastructure consisting of 50+ physical servers and 300+ VDI

- Provided hardware and network support both on site and remotely to over 400 employees
